

Assistant Director, Masters in Tall Buildings and Vertical Urbanism (MTBVU)

The College of Architecture at the Illinois Institute of Technology (IIT), together with the Council on Tall Buildings and Urban Habitat (CTBUH), seek an Assistant Director to support the course director, Dr. Antony Wood, in the teaching and administration of an exciting new, multi-disciplinary degree program, which will be the world's first postgraduate degree specifically focused on the subject of tall buildings, sustainable vertical urbanism, and future cities. A collaboration between IIT and CTBUH, this new multi-disciplinary program will bring together students and professionals in architecture, engineering, real estate, construction, business, communications and other fields to investigate a more viable and sustainable trajectory for urban inhabitation. More on this exciting new degree course can be found at <https://www.ctbuh.org/academic/masters-program>.

This is a joint appointment between IIT and CTBUH. Specific duties include the delivery of tall building/urban density-focused studio and seminar courses, as well as external promotion of the course, and coordination with a high-profile external advisory panel. The position will also link to IIT's PhD program and active research projects at CTBUH, with the successful candidate also taking the role of international academic coordinator at CTBUH. This position is located in Chicago.

Candidates must have: experience in teaching and research in the subjects of tall buildings, urbanism and/or future cities; a terminal degree in architecture, engineering, urban design, or a closely related field of study; and proven ability and achievements in communicating fundamental building industry concepts through writing, presentation, and illustration.

Duties & Responsibilities include: Developing and implementing course plans and instructional resources in collaboration with IIT and CTBUH; teaching design studios and seminars at IIT; evaluating, monitoring and supporting student progress in courses and research; developing and implementing strategies for enrollment growth; academic coordination with IIT College of Architecture administration; steering international academic initiatives for the CTBUH; contributing to CTBUH research projects that leverage academic resources; and building effective partnerships with IIT, CTBUH members, and industry stakeholders.

Note: The deadline for applications is Monday 31 January 2022

CTBUH and COA are committed to diversity and inclusion. Accordingly, women, BIPOC, and candidates from other historically under-represented groups are encouraged to apply. Illinois Institute of Technology is an EEO/AA/Title VI/Title IX/Section 504/ADA/ADEA employer committed to enhancing equity, inclusion and diversity within its community. It seeks applications from all individuals regardless of race, color, sex, marital status, religion, national origin, disability, age, veteran status, sexual orientation, and/or gender identity. All qualified applicants will receive equal consideration for employment.
