TALENT MACHINE
the platform for the exchange of skills, knowledge and information
North East Midtown Manhattan, New York

DESIGN CONCEPT

LIGHT TURF - LOWRIDER

The light shaft is the heart of the building, providing a sense of openness and connection to the sky. The shaft is designed to be a multi-purpose space, suitable for various activities.

DESIGN SYSTEM

ENTRANCE EXTERIOR

The entrance is designed to be a welcoming and dynamic space, serving as a gateway to the building. The entrance features a distinctive design, highlighting the building's identity.

GROUNDFLOOR

The ground floor is designed to accommodate various social and cultural activities. The space is open and flexible, providing a suitable environment for public events and gatherings.
